About Nature Nurture Kids

Helping Children Connect With Nature

Nature Nurture Kids provides **ready-to-use outdoor learning kits** designed for **shared group** participation. Our bulk packs include 10 individual child-friendly kits, making it easy for schools and organisations to **deliver practical environmental education at scale.**

We support:

- Primary Schools
- Forest Schools
- Homeschool Groups
- Eco Clubs
- Youth Organisations
- Local Councils
- Community Interest Companies

From **rescuing worms and snails** to **planting wildflowers for pollinators** and **cleaning up local environments**, each kit encourages children to **explore, nurture and protect** the natural world through **real-world action.**

Why Schools Love These Kits

Perfect for Outdoor Learning

Designed for schools, forest schools and youth groups, our bulk buy kits make it easy to deliver **meaningful outdoor learning experiences** that **build environmental awareness, confidence and teamwork.**

Designed for Group & Class-Based Learning

- ✓ Supports EYFS, KS1 and KS2 learning themes
- ✓ Encourages teamwork and collaboration
- ✓ Promotes outdoor learning and wellbeing
- ✓ Cost-effective bulk options
- ✓ Durable and designed for repeated use
- ✓ Helps children understand and care for the environment
- ✓ Supports nature and biodiversity
- ✓ Builds confidence and responsibility

Each activity kit **links naturally to science topics** including habitats, ecosystems, decomposition and pollination

Learning Outcomes

Our kits help children develop:

- Environmental awareness
- Scientific enquiry skills
- Empathy and responsibility
- Confidence through real-world action
- Understanding of ecosystems and biodiversity

Loved by schools and eco groups for encouraging confidence, wellbeing and environmental engagement through outdoor learning

Many schools use our kits for:

- Forest school sessions
- Science topics
- Community clean-up events
- Wellbeing and nurture groups
- Eco Week
- Earth Day
- **Pupil prizes and eco awards**

Helping children learn about nature by helping nature

Bulk Kits for Schools & Groups

Designed for Group Learning

Our bulk kits include 10 individual kits, making them ideal for **small group learning, eco club projects and outdoor classroom sessions.**

Schools and organisations can **easily run activities** where children **work together** to help wildlife and the environment.

Pollinators & Planting

Environmental Action

- Litter Picking Kits (10 packs)
- Beach & Waterway Clean Kits (10 packs)
- Complete Nature & Planet Helping Rucksacks (10 packs)

A Shared Environmental Action Kit

School & Group Litter Picking Kit (Shared Kit)

Designed for schools and group settings, our School & Group Litter Picking Kit is intended for **shared use by children working together in small groups** to care for their environment.

With robust, repairable and child-safe equipment, the kit supports **organised outdoor activities, teamwork and community action** while helping pupils take pride in protecting local green spaces.

What's Included:

- ✓ **3x** child-sized foldable eco litter pickers
- ✓ **3x** high-visibility vests (sizes 4-6 or 7-9 years)
- ✓ **3x** pairs of robust children's gardening gloves
- ✓ **30x** biodegradable rubbish bags suitable for supervised child use

Perfect for small group activities, eco clubs and organised community clean-up projects.

→ The easiest starting point for schools

Designed to support outdoor learning, environmental awareness and teamwork

Featured Kits

Kids Litter Picking Kit

A hands-on litter picking kit with robust, repairable and child-safe tools, **helping children work together** to protect parks, playgrounds and local green spaces while **learning about environmental responsibility, pollution and caring for their community.**

Bee Rescue Kit

Encourage children to slow down and connect with nature by helping tired bees safely rest and feed, giving them the chance to **observe pollinators up close** and **support biodiversity** through simple outdoor activities and eco projects.

Nature Nurture Kit

An original nature kit inspiring children to explore the outdoors and care for nature through **engaging, hands-on projects and tools** that encourage curiosity and a deeper connection to the natural world. Used together in small groups and/or lent to pupils to continue nature exploration at home.

Featured Kits

Veggie Bomb Kit

The Veggie Bomb Kit **goes beyond simply planting seeds**, offering a fun, hands-on activity where children create their own seed bombs. An engaging way for schools to **guarantee easy growing success** while children enjoy the full “seed to plate” journey—**growing, harvesting, eating, and sharing** their own vegetables.

Beach Clean Kit

Perfect for schools and group activities, this beach clean kit **encourages children to work together to protect beaches, rivers and local green spaces** through organised environmental projects and hands-on outdoor learning using **robust, child-safe and reusable tools**.

Worm Rescue Kit

The original Worm Rescue Kit encourages children to care for living creatures through engaging nature-based activities, **helping pupils observe worms up close, create safe habitats and explore soil health and ecosystems** beyond the classroom.

Certificates & Nature Badges

Our certificates and nature badges **help schools reward children for continuing their environmental activities beyond the classroom**, encouraging independent nature connection, community action and pride in helping the planet.

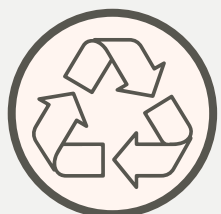

A rewarding way to inspire children to **continue caring** for nature beyond school

Perfect for:

- Home learning challenges
- Environmental awards
- End-of-term recognition
- Independent nature achievements
- Eco clubs

Sustainable & Eco-Friendly

We carefully source eco-friendly and sustainably produced materials wherever possible, with a focus on **reusable, recyclable and environmentally conscious products for ALL our kits.**
